SOFT SKILLS

- Strategic Planning
- Problem Solving
- Creative Thinking
- Data Analysis
- Effective communication
- Results Orientation
- Adaptability to Change
- Analytical Thinking

TECHNICAL SKILLS

- Server management
- Docker
- TypeScript
- Nextjs
- Vuejs
- PHP
- Laravel
- PostgreSQL
- Nginx

LANGUAGES

- Spanish (Fluent)
- English (Intermediate)

PROFILE

+2 years of experience as a Full Stack Software Engineer developing scalable, flexible, and adaptable solutions, especially in dynamic environments where quick but efficient responses are required. My goal is to provide solutions with real impact that drive the technological evolution of organizations.

WORK EXPERIENCE

Mundo Imperial JULY 2024 - JULY 2025

Full Stack Software Engineer

- Designed and implemented the organization's first ticketing system, cutting inter-departmental communication time by 40% and improving response efficiency.
- Led and mentored the development team, fostering a collaborative, high-performance culture through agile practices and continuous feedback.
- Managed and secured production environments (shared servers + web apps), ensuring uptime and strict access controls.
- Deployed a Content Security Policy (CSP), mitigating OWASP Top 10 risks (e.g., XSS, clickjacking) and reducing vulnerabilities.

SECTUR (Guerrero) JAN 2023 - JUN 2024

Full Stack Software Enginner

- Set up a Linux server (Debian 11) to work as a web server with a public IP address. Also, set up registration and alerts to detect any possible issues.
- Designed and configured a production Docker environment, integrating multiple services including a database, frontend, backend, and Reverse Proxy into a seamless, interconnected system. Standardized workflows and deployment processes.
- Designed and developed an HR management system that streamlines employee data organization and digital request processing.

EDUCATION

Bachelor's degree in Computer Systems Engineering 2019 - 2024

Tecnológico Nacional de México Campus Acapulco (TECNM)
